

navify Tumor Board

Facilitating Case Discussions and Treatment Collaborations Virtually

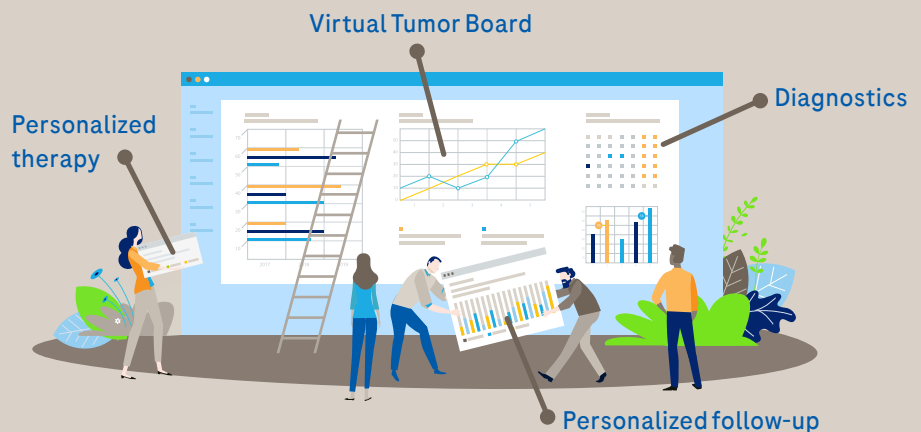

CHALLENGE

Make disparate knowledge available to remote specialists, locally and globally.

SOLUTION

navify Tumor Board
Workflow Plus Clinical
Decision Support Apps

navify Tumor Board enables standardized, secure multidisciplinary team collaboration based on integrated patient data and the latest National Comprehensive Cancer Network Clinical Practice Guidelines in Oncology (NCCN Guidelines®), clinical trial options, and medical and scientific literature powered by MolecularMatch, Inc. Oncology care teams may prepare and discuss cases from anywhere, in synchronous or asynchronous sessions, to optimize personalized treatment decision-making.
